OBJECTIVE

As a passionate programmer, my objective is to use my skills to bring about positive change in society and make people's lives easier. I aspire to work with highly experienced individuals and continuously learn new things in this rapidly changing world of technology.

TECHNICAL SKILLS

- Python, C
- Data Structure and Algorithm.
- HTML,CSS, Javascript.
- Django Framework

TEACHING EXPERIENCE   (November 2022 = Present)

- Taught Python programming fundamentals along with my brother to over 200 students through online classes.
- Designed and delivered interactive lessons, assignments, and quizzes to facilitate learning.
- Provided individualized guidance and support to help students grasp complex concepts.
- Monitored student progress and adapted teaching methods to address diverse learning needs.

CODING PROFILES

LeetCode: Visit profile - Solved 250+ algorithmic and data structure problems.

GeeksForGeeks: Visit profile - Solved 380+ problems covering various computer science concepts.

HackerRank : Visit profile - Achieved 5 star in Python along with 3 certificates

PROJECTS

Website for Cafe shop   (June 2023 - July 2023)

- To enhance my frontend skills, I have created this website using HTML,CSS and JavaScript. for cafe shop.
- The objective of this website is to allow customers to directly interact with the cafe team and place order online.
- **Database:** MySQL
- **Architecture used:** Django's MTV (Model-Template View) Architecture
- **Repo Link:** View Repository

EcoTrack: Sustainable Travel Planner   (August 2023 - Sept 2023)

Designed and developed an eco-conscious web application that leverages real-time environmental data, route optimization algorithms, and gamification to encourage sustainable travel choices.

Key Features:

- Environmental data integration
- Route Optimization
- Gamification
- Sustainability Dashboard
- Interactive Maps
- Data Visualization

EDUCATION   (2021-2025)

Batchler of technology in Computer Science from Sri Aurobindo Institute of Technology, Indore

ACHIEVEMENT

I got 3 certificates from HackerRank for Python, problem solving (Basics and Intermediate).
